To whom it may concern,

This letter of recommendation is in regards to Ms. Michelle Vidotto. Michelle has been an effective and innovative teacher in both grade three and grade four at Burdett School. Ms. Vidotto has taken on various roles within our school as an elementary teacher over the last ten years.

During the time I have known Ms. Vidotto, she has shown tremendous growth as a teacher in becoming a role model to our students. Her leadership accomplishments include successfully taking on the role of coach for our mini-sports program, and most recently becoming the teacher leader for our Student Council with admirable results. Michelle has a passion for integrating technology into her teaching and has done much to help other teachers internally and externally in this regard. She is an excellent planner and has ensured that her students are exposed to first-rate learning opportunities inside and outside of the classroom environment. This year Michelle was asked by the grade nine students of Burdett to speak at their farewell ceremony as the special guest. This is an honour for any teacher, and Ms. Vidotto rose to the occasion.

Ms. Vidotto has shown versatility and resilience by converting classroom spaces multiple times and integrating into different PLC groups to accommodate our growing staff and student population. This flexibility has been very important for our school. I am confident Michelle would make a great addition to your staff.

Sincerely,

Justin Nicoll

Principal
